

IN2IT@EBANK!

Agscience R&D SNEAKPEEK

February 2 for young farm leaders ... **FREE!**

SEE ... biodigesters (power from poo) a renewable, recycled resource.

AND ... more grunt than grass. Can we curb greenhouse gas emissions while using less water and produce food that's even healthier?

PLUS ... Dirt earns. Why soil matters today and tomorrow

HEAR ... World-leading scientists explain what they do, and how they got to where they are today.

MEET ... young researchers working in agscience

IN2IT@EBANK!

Gippsland is home to Australia's foremost experts on ag greenhouse gas, rumen-based systems (that's your milk and meat) and soil science. Meet them!

Victoria's Department of Primary Industries has invited Agribusiness Gippsland to organise a group of future farming leaders to see the latest in agricultural research and development at DPI Ellinbank, nr Warragul. 10am-2pm, February 2, 2012 at DPI Ellinbank, Hazeldean Rd. Suitable for young farmers, science/ag students. Year 10 upwards welcome.

PLEASE BOOK (esp. school groups)
